Helping Dealers Exceed Customer Expectations Every Time

Carrier

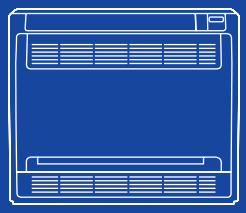

PRODUCT FAMILY BROCHURE

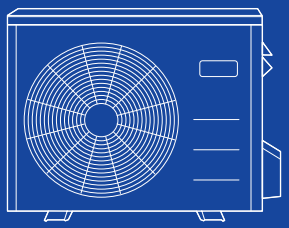

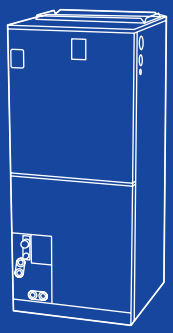

FALL 2022

WHY CARRIER?

Our ductless solutions allow you to provide efficiency, performance and innovation — all in a feature-rich system.

HIGH EFFICIENCY

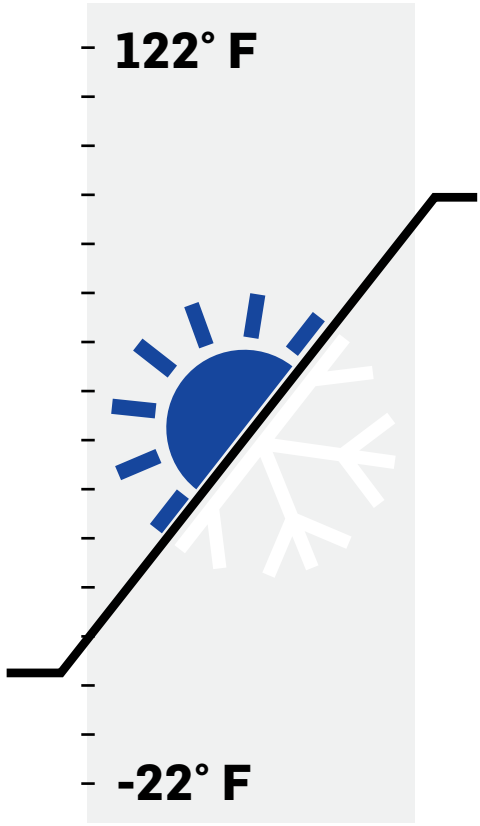

Our systems provide improved temperature regulation and increased energy and cost savings. With up to 42.5 SEER, 15.0 HSPF, and ENERGY STAR® certification across our ductless portfolio, we have one of the highest efficiency ratings in the world.

QUALITY PERFORMANCE

Our solutions deliver quality performance across a broad range of temperatures for year-round comfort control. In fact, our ductless systems can heat in temperatures as low as -22° F and cool in those as high as 122° F.

COOL INNOVATION

Our constant innovation allows us to create high-performing ductless solutions that keep all users in mind. Customers can enjoy personalized control and reliability with individual remote controls and the Carrier CliMate Wi-Fi® App for a full home or single room.

The Carrier CliMate App is available from the App Store® and Google Play.™ Features are intuitive and easy to navigate.

We're Here to Support You and Your Customers

At Carrier, we understand that your customers expect more comfort, control and performance from their HVAC system. And we know what you need to be successful and exceed these expectations, every time.

No matter the challenge, no matter the space, Carrier Ductless is the HVAC solution your customers have been looking for.

Let us help reinforce your reputation as a trusted dealer and market expert.

PROVIDE MORE VALUE WITH DUCTLESS

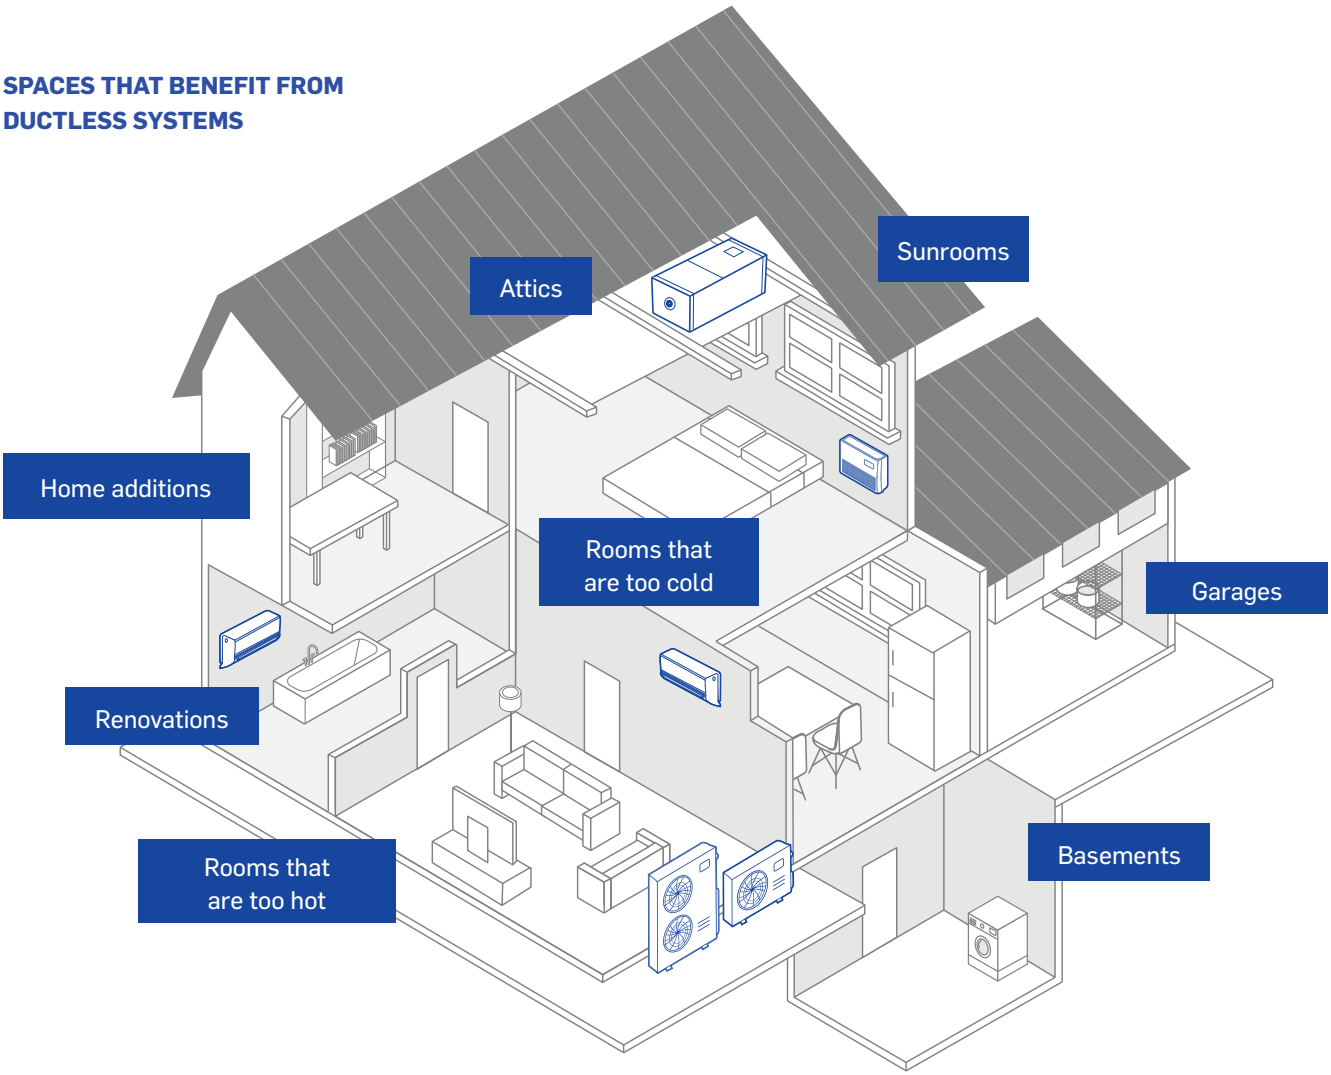

To help you stay competitive and successful, Carrier offers a family of flexible ductless solutions that fit a range of needs. Extremely efficient and high-performing, these systems help solve your customers' biggest heating and cooling challenges.

Versatile HVAC Systems for Endless Comfort Possibilities

Ductless systems are unique, generating climate-controlled air without the use of traditional ductwork. Compact and sleek, they can be used in single or multiple zones to create endless possibilities for personalized HVAC systems.

Ductless indoor units integrate neatly into a space. They're installed in the least obtrusive but most effective area to quietly direct air to every corner of the room. And the indoor unit(s) simply connects to the outdoor unit with a hidden conduit.

SPACES THAT BENEFIT FROM DUCTLESS SYSTEMS

SINGLE ZONE
RESIDENTIAL

INFINITY® SERIES

9-18k BTUh

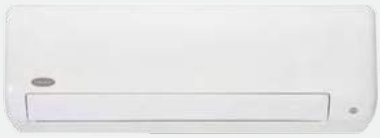

Up to	Up to
42.5 SEER	**15.0 HSPF**
