PERFORMANCE™ SERIES HORIZONTAL HEAT PUMPS

Compact and versatile up to 18.0 SEER2 and 9.2 HSPF2*

Model 38MURA

*when matched with 1.5 ton 40MUAA

THE CARRIER DIFFERENCE

If you could look under the hood of a Carrier Performance Series horizontal heat pump, you'd see what drives the efficient, reliable comfort: a serious commitment to quality. Our smooth-running compressor represents the quiet, reliable performance you expect. A galvanized steel cabinet shields these units from exposure to hail, errant soccer balls, lawn equipment and more. All this in a compact cabinet that can be installed on a roof, under a deck, or on a balcony to save space, or even stacked to provide comfort for larger living spaces or zoned systems.

Additionally, the horizontal design of the coils allows for more efficient heat transfer, which can lead to lower heating and cooling bills.

EFFICIENCY

SEER2 (Seasonal Energy Efficiency Ratio) and HSPF2 (Heating Seasonal Performance Factor) ratings are like your car's MPG – the higher the number, the greater the potential for savings. Performance Series horizontal heat pumps start at 14.7 SEER2 and 8.2 HSPF2.*

*38MURA matched with 40MUAA

ENVIRONMENT

Carrier was the first to offer systems with Puron® refrigerant, which does not contribute to ozone depletion. By replacing an older, less efficient horizontal heat pump with a Performance Series system, you could reduce your energy use and environmental impact.

MODEL 38MURA HEAT PUMP
with 40MUAA AIR HANDLER

SOUND

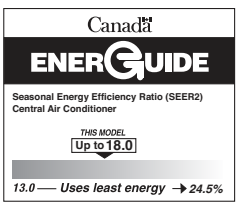

Ultra-quiet operation reduces noise pollution both indoors and out for more peaceful, comfortable spaces. The 38MURA has sound performance as low as 54dBA.

LIMITED WARRANTY

To the original owner, our Performance Series horizontal heat pumps are covered by a 10-year parts limited warranty upon timely registration. The limited warranty period is five years if not registered within 90 days of installation except in jurisdictions where warranty benefits cannot be conditioned upon registration. See warranty certificate at carrier.com for complete details and restrictions.

A BRAND THAT HAS NEVER STOPPED INNOVATING – AND NEVER WILL

Founded upon Willis Carrier's invention of the modern air conditioning in 1902, Carrier is the leading global provider of healthy, safe, sustainable and intelligent building and cold chain solutions. We are constantly building upon our history of proven innovation with new products and services that improve global comfort and efficiency – addressing customer challenges and providing great experiences along the way.
