Central Heat Pump
LUXE SERIES

Canada Greener Homes Grant · nrcan · ENERGY STAR · AHRI CERTIFIED® www.ahridirectory.org

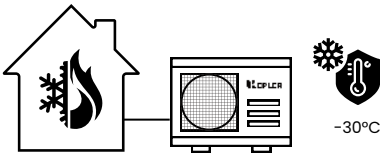

SMART COMFORT. ULTRA EFFICIENCY. RELIABLE HEATING & COOLING

Why Choose LUXE Heat Pump?

The Kepler LUXE Series heat pump offers energy-efficient, eco-friendly comfort year-round—keeping your home warm in winter and cool in summer. By transferring heat instead of generating it, it reduces energy consumption and lowers costs. With whisper-quiet operation, government rebate eligibility, and a smaller carbon footprint, LUXE is a smart, sustainable choice.

Luxe Innovations

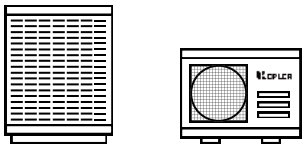

LUXE 1.5-5 TONS
ccASHP
Up to 16.5
SEER2 & 9.7 HSPF4

Inverter Technology

LUXE Series features advanced inverter technology, adjusting output based on demand for maximum efficiency. This reduces energy waste, lowers consumption, and minimizes your carbon footprint, without compromising comfort.

Smart Control & Lower Costs

The LUXE Series heat pump combines advanced energy efficiency with smart control, optimizing performance to lower utility costs while ensuring seamless, eco-friendly comfort at your fingertips.

Traditional: 73 db (A) KEPLER: 57 db (A)

Whisper Quiet Heating & Cooling

Engineered for ultra-efficient heating and cooling, it delivers reliable performance even in extreme cold (down to -30°C) while operating silently.

Engineered For Extreme Climate

Designed for extreme conditions, the LUXE Series heat pump delivers reliable heating and cooling even in temperatures as low as -30°C. Engineered for efficiency, it ensures year-round comfort while optimizing energy use, making it a dependable choice for any climate. Stay warm in winter and cool in summer effortlessly.

High Efficiency & Cost Savings

With SEER2 ratings of up to 16.5, the Kepler LUXE Series heat pump maximizes energy efficiency by adjusting performance to real-time demand. This optimized energy consumption not only lowers utility costs but also ensures consistent indoor comfort, providing a perfect balance of performance, savings, and sustainability for year-round climate control.

Eligible For Rebates

The LUXE Series heat pump qualifies for the Canada Greener Homes Grant, offering homeowners up to $10,500 in rebates for energy-efficient upgrades. By choosing LUXE, you not only enhance your home's comfort and efficiency but also save on costs while contributing to a more sustainable future.

10 YEAR LIMITED WARRANTY
WITH PRODUCT REGISTRATION

The Kepler LUXE Series is backed with up to 12-year parts limited warranty* and up to 12-year compressor limited warranty*

Pair the Kepler Luxe Series with an existing furnace to let it determine the best source of heat (gas or electric) on cold days to guarantee peak efficiency and comfort of your HVAC system

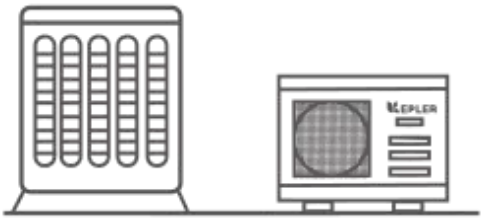

KEPLER

Key Benefits of LUXE Series

Ultra-quiet Performance

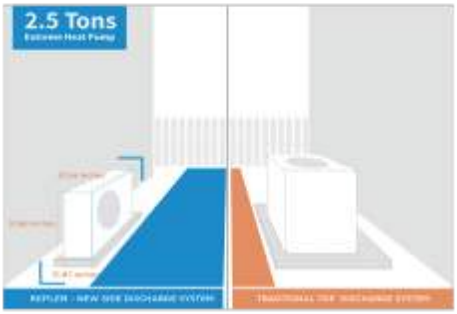

Enjoying home comfort is most satisfying in a calm environment, both indoors and outdoors. Kepler units offer near-silent operation inside, while their outdoor units feature a side discharge design that ensures extremely quiet functioning, with noise levels as low as 58 dB(A) outside, letting you relish your outdoor area without disturbance.

Easy to Fit in Any Space

Thinner design and lighter weight provides unmatched flexbilty to fit in any unique home space .

- Fit more in your tech van or truck, with up to 4-5 Luxe Series units as opposed to 1-2 traditional units
- Easy to bring to the installation site and install on pad; single fan unit can be transported by just a single worker

Easy to Service

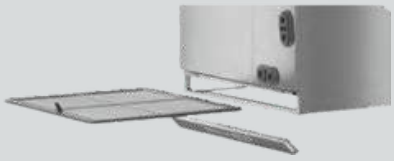

Streamlined Trouble Shooting
Easily accessible error code display

Easy Access
Remove two screws for access to the electrical board, blower, heater

Slide-Out Fan
Easily remove the fan motor for straightforward maintenance

Magnetic Filter Cover
One click for filter access
